**ADVENTURE SKIING AND HELISKIING  
TO THE BEACH...**

---

## **GREENLAND, DREAMLAND...**

---

If you're one of those who dream of dazzling new experiences, something unique and out of this world... choose your destination: Greenland!

A destination with hidden treasures for skiers, nature and space lovers, longing for breathtaking sensations...

---

## AMAZING AND UNEQUALLED SCENERY OF MOUNTAINS AND SEA

---

A natural ice desert... surrounded by hundreds of square kilometres of mountains, between which flows incredible glaciers.

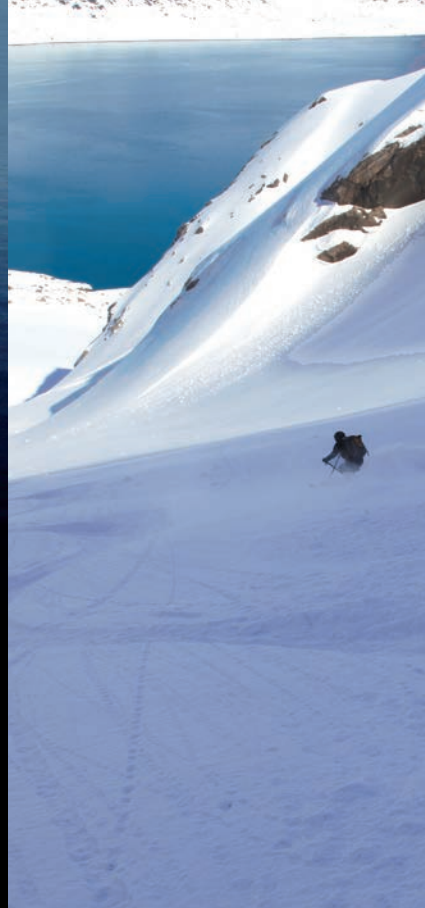

Amazing and unequalled scenery of mountains dipping into the sea; magical arctic lights; long days, short nights; and, just in the middle of this ineffable scenery, whales, seals, caribous... Quite simply a magical sight, far beyond our imagination...

---

## AN UNIMAGINABLE SKI TERRAIN

---

Boarding! On a speed boat, with your ski boots on, it is the immersion in the heart of the fjords; and perhaps the chance of crossing the road of one or more whales...

...before you discover the infinite choice of spectacular runs, which will provide thrills to enthusiasts and unlimited skiing for all skiers in a small group.

A huge variety of quality terrain, unbelievable runs with couloirs, big glaciers and breathtaking views... ranging from the Ice Cap to the sea on the unique Arctic snow.

Mountains in this area rise up to 1 700 meters above sea level, with a few peaks in the Eternity Fiord rising above 2 000 meters.

The most beautiful mountains of the south west coast of Greenland, just below the Arctic Circle, where true adventure and discovery are the keywords. Exclusive access to vast terrain with the possibility for those who wish to extend the experience in the rays of the evening sun. A complete heliskiing adventure with sea views and the opportunity of skiing to the beach!

---

## **SAFETY AND PLEASURE IS OUR TOP PRIORITY**

---

## **GUIDES**

We began to explore this Arctic region in year 2000 and based on our experience we offer you the opportunity of a unique adventure along with outstanding professional services.

Our lead guides are European certified mountain guides with extensive heliski experience from all over the world. From years of exploration they have unsurpassed knowledge of the Greenlandic terrain and specific snow conditions.

## HELICOPTER, PILOT AND MAINTENANCE

We have exclusive access to an Air Greenland Eurocopter Ecureuil B3 helicopter. Air Greenland has the highest level of maintenance standards within the aviation industry and will provide a backup helicopter in case of technical problems.

Pilots are all professionals, generally Nordic, and trained for the specific Greenlandic conditions. They are furthermore required to pass the approved Air Greenland Heliski Pilot Training program.

---

## UNEXPECTED AND VERY NICE SKI CONDITIONS

---

Skiing conditions are very pleasant since Greenland enable skiing to and from sea level and the temperature are comparable with many European resort in March.

The long days without night from mid-May offer unlimited skiing, generally in stable snow conditions due to the maritime climate.

---

# 7 DAYS OF ADVENTURE

---

Here is the non-exhaustive list of what your days would look like: a week adventure of heliskiing, boat tours, whales, ski touring, prestigious flights, glaciers, fishing, barbecues in the refuge, a comfortable room in a hotel by the sea, storms, wind, quiet, silence, sun, long days, short nights... A whole magical world.

## DAY 1

After landing in Maniitsoq, the Heliskigreenland team will meet you at the airport and drive you to the hotel (5 minutes).

Settling at Hotel Maniitsoq. Security briefing, preparation and control of equipment.

Supper and night at the hotel.

## DAY 2 TO DAY 7

After breakfast, we will take you to the harbor or airport to reach, by speed boat or helicopter, the first slope. The helicopter will drop you at altitude for you to ski off-piste guided by one mountain guide per group of 4.

After some runs as you get hungry the group will stop for a scenic picnic in the mountains.

In the afternoon you will continue discovering the Arctic area and hopefully track more fresh snow as you move further into the endless virgin terrain. Most of the slopes offer you magnificent sea view and the opportunity of skiing all the way to the beach !

Should the weather not allow for heliskiing we offer you other adventures such as ski touring, whale watching, kayaking, fishing...

At the end of the day as we move back we may have the chance of crossing the road of one or more whales.

Back at the hotel, usually late in the day, you can explore the village or simply relax at the hotel. You can then enjoy a pleasant evening and a delicious dinner if you wish followed by the special Greenlandic Coffee.

As the days are long we may, weather permitting, extend the experience further by late skiing in the rays of the evening sun.

## DAY 8

Early breakfast before your transfer to Maniitsoq airport. It's time to leave. You will fly back to Copenhagen, unless you choose to extend your trip to discover another exceptional site : Ilulissat.

---

## OUR BASE CAMP

---

Our hotel is located on the small Maniitsoq Island, in the South West Greenland.

An island full of colourful houses, accessible by plane, equipped with a hospital as well as all the facilities of a small town of 3 000 inhabitants.

The 3 star hotel is situated in the center of this cosy westcoast town, at a hilltop overlooking the harbour with magnificence view of the surrounding glaciers peaks.

The hotel has 21 comfortable double rooms. You will stay in a room with sea view, private bathroom shower and WC, phone, satellite TV, wireless Internet connection and mini-bar. You will also have access during your stay to the exclusive use (for the participants of this stay) of a jacuzzi, located on the terrace facing the view.

Dining at Hotel Maniitsoq is a pleasure you won't forget easily: The kitchen is one of the finest in Greenland. The meals are not only delicious but often with new ideas and tasteful surprises. The wine list features a careful selection of fine wines and liqueurs.

## HOW TO GET THERE ?

To go to Greenland, you need to transit through Copenhagen (Denmark). You will most probably have to spend a night in Copenhagen on your way to and from Greenland, as connections on the same day are not available.

You will fly Air Greenland to Greenland's international hub, Nuuk, and continue on a 30 minutes domestic flight to Maniitsoq.

In most cases, you can enter in Greenland without visa. A passport or ID card of current validity is required to travel to Greenland (subject to changes).

---
